HISTORY

As the capital and most populated city in Denmark, Copenhagen receives around 2-million tourists every year. Visiting Copenhagen is indeed a dream. There is so much beauty to behold no matter which neighborhood you choose to explore. From the Little Mermaid Statue and other sightly landmarks to historic towns and marketplaces, you will find there is a lot to take in such a small amount of time.

## In the Beginning

The city of Copenhagen dates way back to the 11th century when it received its first settlers. However, it wasn't until Copenhagen was under the reign of Bishop Absalon (a Danish archbishop) in the 12th century that it began to receive more attention. A stone wall was put up in the 13th century to barricade the city as it rapidly grew in importance and became a center for trade.

## The Coronation of Christian IV of Denmark

After the coronation of Christian IV of Denmark in 1596, the city formed new districts, fortresses, and had undergone other modern enhancements. By the time Christian IV of Denmark passed away, Copenhagen had become a vital citadel and naval port for the nation. It was also deemed a center for trade in Northern Europe.
